Argo AI

Collaborative storytelling for travelers

https://getargoai.com

Founder's contact info: alex@ntevo.com (206) 303-8494

problem

We take pictures to create memories but then just pile them up dreaming to organize it one day.

A picture tells better than a thousand words but not when it was taken 1-20 years ago.

We don't remember too much.

Facebook & Google/Apple Photos know there's a **demand for the sharable stories** but lacking the right tool.

On this day

solution

AI interviewer & story builder
CRAFTS MEDIA & BOOK STORIES to SHARABLE TRAVEL MEMORIES

Functionality

1.Choose your favorite trip pictures
Pick a trip, a person, or a photo - something worth remembering.

2. Invite Your People - Collaborate
Family and friends can edit and add their voices and photos.

3. Talk It Out
The AI asks thoughtful questions and listens like a curious interviewer.

4. Get a story to share
AI builds a pdf, a book, and a presentation to cast on TV
